

Program Details

CUSTOMIZING

Park Naturalists are happy to work with you to customize to best fit your instructional and group needs. If you would like specific vocabulary, concepts, activities or information emphasized, call the appropriate Nature Center as soon as possible to work out those specifics.

PARKING

FREE parking is available at all of the Nature Centers, city parks and Krohn Conservatory.

DRESS FOR SUCCESS

Come prepared for the weather and count on being outside for at least part of the visit. The true value of a Nature Center is in its forests and fields; we want everyone to experience nature outdoors.

Participants should wear rain gear or coats as the weather requires, sturdy closed-toe shoes (no sandals or flip-flops), and hats and gloves in cold weather.

ACCESSIBILITY

Reasonable accommodations are available upon advance request. Wheelchair accessible hikes are available at Caldwell and California Woods Nature Centers (some indoor program elements are not wheelchair accessible at California Woods). Call the Nature Center you are interested in scheduling for details. Naturalists will work with group leaders to create an appropriate program to accommodate participants with learning delays or disabilities.

LUNCHES

Lunches should be marked with each child's name, and include a drink (The Nature Centers and city parks do not have vending machines). Depending on the weather, participants eat outside at picnic tables or inside the Nature Center.

BOARD OF PARK COMMISSIONERS

Otto M. Budig, Jr., President
Merri Gaither Smith, Vice President
Robert D. H. Anning
Susan F. Castellini
Dianne M. Rosenberg

Cincinnati Parks Explore Nature!

In the pages of this guide, you'll find Park Naturalist-led programs for participants of all ages and levels of ability. Use the guide to locate those programs that best complement your lesson plans/activity calendar and to help you schedule a program or field trip for your class. *See you out in the parks!*

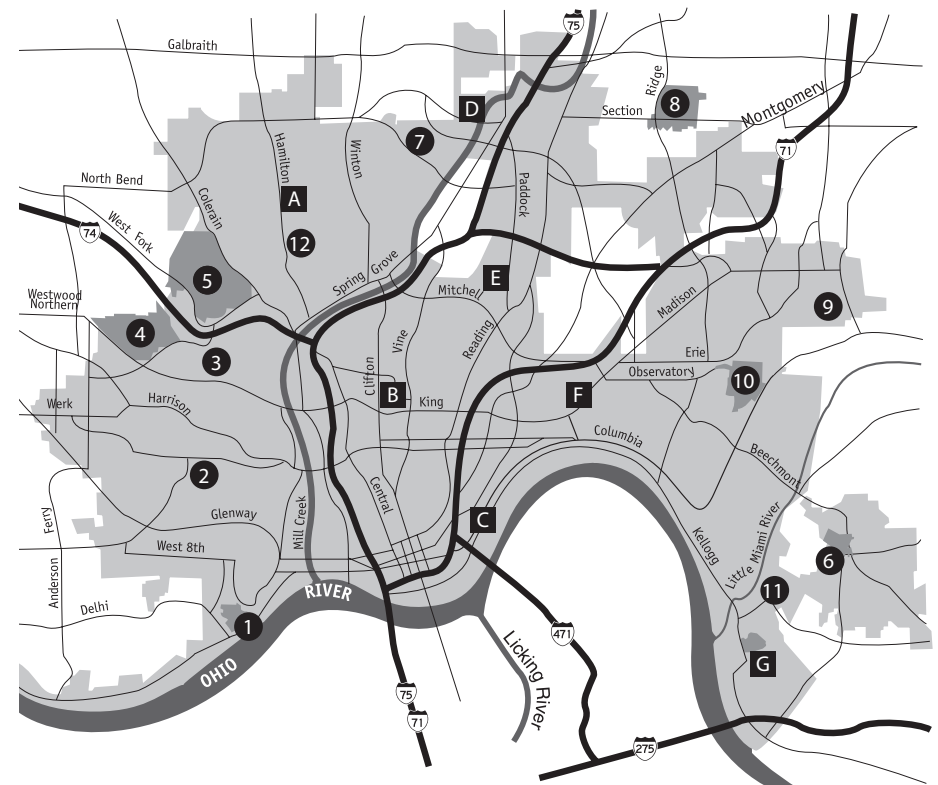

We operate 5 Nature Centers and also offer programs in neighborhood parks. For information about a specific center, call the Naturalists at the numbers below. For information or reservations for Krohn Conservatory tours, call Krohn directly at the number below.

For general information and reservations, call the Bettman Center.

Avon Woods Nature Ctr. Inner-City Outreach	4235 Paddock Rd.	861-3435
Bettman Natural Resources Ctr.	4 Beech Lane	321-6070
Caldwell Nature Ctr.	430 W. N. Bend Rd.	761-4313
California Woods Nature Ctr.	5400 Kellogg Ave.	231-8678
Krohn Conservatory	1501 Eden Park Dr.	421-5707
LaBoiteaux Woods Nature Ctr.	5400 Lanjus Lane	542-2909
Trailside Nature Ctr. and Wolff Planetarium	3400 Brookline Ave	751-3679

Reasonable accommodations will be made upon advance request. Visitors may be photographed, filmed, or recorded by the Cincinnati Park Board for educational or promotional uses.

Welcome to your Cincinnati Parks!

Parks & Preserves with Trails

- 1 - Mt. Echo Park
- 2 - Glenway Woods
- 3 - Brodbeck Preserve
- 4 - McFarlan Woods (Mt. Airy)
- 5 - Mt. Airy Forest
- 6 - Stanbery Park
- 7 - Seymour Preserve
- 8 - French Park
- 9 - Little Duck Creek
- 10 - Ault Park
- 11 - Magrish Preserve
- 12 - Buttercup Valley / Parkers Woods

Nature Centers - Neighborhood

- A - LaBoiteaux Woods - College Hill
- B - Trailside - Clifton (Burnet Woods)
- D - Caldwell - Carthage/Hartwell
- E - Avon Woods - Paddock Hills
- G - California Woods - California

- C - Krohn Conservatory - Eden Park/
Walnut Hills

NATIVE AMERICANS

Season Available: F, W, S

Grade Level: Pre-K – 4

This interactive program focuses on the everyday life of an Ohio Native American child in the late 1700's, including food, clothing and shelter. Children experience daily life skills, pictographs, games and stories. The hike stresses Native Americans' historic uses of forest resources.

Note: To include daily life style activities, program must run a minimum of 2 hours.

MAPLE SUGARING

Season Available: February Grade Level: Pre-K – 5

Experience how Sugar Maple trees produce sap and why it is collected for syrup only during this brief season. Watch us collect the sap and cook it down. Taste maple sap in three stages of production. The basic program is one hour in length with half taking place outdoors.

An extended program for grades K - 5 that lasts up to 3 hours, including a 30 minute lunch break, covers the basic program plus a hike to tap a Maple tree, and interactive demonstration of Native Americans' use of maple sap, science experiments and additional hands-on activities. Half of the extended program occurs outdoors.

FOSSILS, SOILS AND CINCINNATI GEOLOGY

Season Available: F, S

Grade Level: Pre-K – 6

Children participate in an interactive introduction and an exploratory creek hike to find Cincinnati's famous fossils. A two hour program for Pre-K through Kindergarten covers fossils only.

Grades 1 and older investigate geologic processes such as rock formation, soil types, weathering and other forces, past and present, that shape Cincinnati.

ADAPTING TO HABITATS

Season Available: F, W, S

Grade Level: K – 2

Discover the differences between living and non-living things as we learn how plants and animals interact with their physical environment. We investigate the basic needs of organisms, how their habitat fills those needs and the important role of adaptations. During the hike, children explore three different local habitats.

ECOLOGY: WHAT'S THE CONNECTION?

Season Available: F, W, S

Grade Level: 3 – 5

Everything is connected! Study how organisms survive in their ecosystem and how the energy all organisms need flows through the system. As children explore food chains and food webs, they discover what roles everyone plays in an ecosystem and that everything is important.

THE GREEN TEAM

Season Available: F, S

Grade Level: 3 – 6

Children investigate the unique role of plants as producers of food through photosynthesis. A hike can include plant life cycles, pollination, seed distribution, how plant structures are related to function and interactions between plants and animals. Fall programs can include leaf collections and the use of classification keys.

WEATHER 101

Season Available: F, W, S

Grade Level: 2– 6

A lively series of demonstrations introduces children to how air, water and heat produce Earth's weather. Children learn how to read a weather map. They perform experiments introducing air pressure, convection currents, and how different types of clouds bring different types of weather. On the hike, we look for the effects of weathering and erosion and measure temperature in various locations.

LOCAL WILDLIFE

Season Available: F, W, S **Grade Level:** Pre-K – 2

Explore the wildlife in the Cincinnati region! Hike the preserve to look for animal homes, and how they meet their needs in our area: food, water, shelter, space. Meet some local animals in the Nature Center and learn about the adaptations that help them live here. We will also explore a little bit of animal classification. Suggested program times: Pre-K up to 2 hours, K - 2 up to 3 hours

WONDERS OF THE SEASONS

Season Available: F **Grade Level:** Pre-K – 2

Fabulous Fall: Learn all about the wonders of fall. Enjoy a puppet show highlighting how animals prepare for winter, take a hike to explore the season in person, and make a fall-themed craft. This program is typically 1.5 - 2 hours long.

Season Available: S **Grade Level:** Pre-K – 2

Spring Into Spring!: After a long winter, explore the wonders of spring renewal in nature! Enjoy a puppet show that focuses on how local animals got through the winter and prepare for spring. Take a hike to explore the wonders of the new season, and make a spring-themed craft. This program is typically 1.5 - 2 hours long.

“TREE”-MENDOUS TREES

Season Available: F, S **Grade Level:** Pre-K – 5

This program is a well-rounded introduction to all aspects of the plant kingdom. Hike the preserve and explore basic tree identification and uses, based on the season. Inside, learn about plant physiology and photosynthesis.

HISTORY AND MYSTERY OF MAPLE

Season Available: February/Early March **Grade Level:** Pre-K – 5

From the Native American, to pioneer, to current sugar farmers, we taste and experience the magic of maple sugaring. Learn about the fascinating process trees use to make sweet sap and why this is the only time per year we can use it. Assist the Naturalist in tapping trees, collecting sap, and witness the transformation from sap to syrup. Program length: Pre-K - K up to 2 hrs, 1st - 5th grades up to 3 hours.

THE ECOLOGY OF HABITATS

Season Available: F, W, S **Grade Level:** 2 – 8

Explore the forest, meadow and creek habitats in a single day! Hike to each habitat and learn about their fascinating ecological interactions. A short indoor presentation looks at various animals and their adaptations for success as well as predator/prey relationships.

CYCLES AND RECYCLES

Season Available: F, S **Grade Level:** 3 – 8

Learn about cycles in nature including life cycles of amphibians, insects and plants. Play Incredible Journey, a game focusing on the water cycle. Part of the day focuses on a cycle that humans invented: generating and recycling our solid waste.

LANDS ACROSS TIME - THE GEOLOGY OF CINCINNATI

Season Available: F, W, S **Grade Level:** 3 – 6

Through interactive demonstrations and hands on exploration, learn about the rock cycle, soils, glaciation, freeze/thaw processes and fossilization. Hike our Lick Run Creek to learn about erosion. Find fossils in the field. Children will be permitted to take a fossil home. *Program can be customized to the teacher's lesson plans. Sturdy footwear is required. Plan to get dirty.*

AN OLD WAY OF LIFE: A PIONEER EXPERIENCE

Season Available: F, S **Grade Level:** 3 – 6

Learn about pioneer ways and experience a typical day in the life of a pioneer child. Children discover how lifestyles, religion, customs and traditions helped shape Cincinnati. An Oregon Trail inspired game and interactive hike introduce children to characters of that period.

BRINGING LITERATURE TO LIFE: SURVIVAL LITERATURE

Season Available: F, S **Grade Level:** 4 – 8

Hatchet or *My Side of the Mountain* come to life as children hike the woods to locate sources of food and water, build an emergency shelter, and try essential outdoor skills like fire building and edible/medicinal/poisonous plant identification. This program builds excitement, deepens understanding and instills self confidence. Please let us know which book you choose and read it before the program.

LaBoiteaux Woods Programs

HISTORY IN MOTION WITH JOHNNY APPLESEED AND SACAJAWEA

Season Available: F, W, S

Grade Level: Pre-K – 1

This interactive program introduces students to the famous Johnny Appleseed and Sacajawea. Presented in first person and designed to give students the experience that they are actually meeting these two American and Native American icons respectively. Step back in time as we explore the contributions that each one of these individuals made to the United States of America and how their influence helped shape a nation.

SPRING TO LIFE

Season Available: S

Grade Level: Pre-K – 3

Springtime has returned to Cincinnati bringing brilliant new colors and creatures! Students experience first-hand the adaptations of our feathered friends as they become birds themselves. As we look for wildflowers, butterflies, and birds, we also visit and walk through the “Wishing Tree”. Plant and take home a mini-garden. A live animal encounter has your students buzzing happily for years to come.

ALL ABOUT FALL!

Season Available: F

Grade Level: Pre-K – 3

Autumn is here bringing brilliant colors and cooler weather. Meet a talking tree and puppets who explain how plants and animals prepare for the coming winter. Make a color craft that students take home to remind them of the changes going on in Fall. Embark on a hike along the creek to look for signs of the season and visit the “Wishing Tree”. Enjoy a live animal encounter.

NATIVE AMERICAN LIFE

Season Available: F, W, S

Grade Level: Pre-K – 3

This interactive program focuses on the everyday life of an Ohio Native American child in the late 1700’s, including food, clothing and shelter. You experience daily life skills, create pictographs, and participate in fun games. The informative hike stresses Native Americans’ historic uses of forest resources.

LaBoiteaux Woods Programs

NATURE’S CAPTIVATING CYCLES

Season Available: F, S

Grade Level: 1 – 4

Explore Mother Earth’s life-giving cycles such as nitrogen, water, and carbon. Participate in a soil study to discover the conservation of nutrients and water that is essential to all creatures. A creek hike focuses on the properties of water. Unlock the mystery of energy flow and it’s importance in the ecosystem.

AMAZING WORLD OF PLANTS

Season Available: F, S

Grade Level: 1 – 4

Explore the amazing life of plants and discover how they have adapted over millions of years to survive all four seasons. Learn the basic parts of a flower and create a seed germination experiment to take back to your classroom. Hike through LaBoiteaux Woods Preserve to investigate more about native plants and their importance to the local habitat.

SURVIVAL LITERATURE

Season Available: F, S

Grade Level: 4 – 8

Hatchet, *My Side of the Mountain* or *Where the Red Fern Grows*, come to life as students hike to locate food and water, build emergency shelters, and learn essential outdoor skills to include fire building, map and compass, and wild edible plant identification. Gain a deeper understanding of these literary works through hands-on activities designed to promote self-confidence and wilderness survival.

THE UNDERGROUND RAILROAD, RAVINE TO FREEDOM

Season Available: F, W, S

Grade Level: 5 – 8

LaBoiteaux Woods was on the path of an important network of Underground Railroad activity in College Hill during the 1840s-1850s. Children walk part of a route used by escaping slaves on a rugged, 75 minute trail hike through the woods. Indoor activities include a simulated journey to freedom and using maps to trace escape routes. Winter is the best time to experience this program: with fewer tree leaves, views are better of the local topography, students can imagine the harshness of the cold weather with minimal clothing and it was the preferred time of the year for the slaves to escape due to more hours of darkness.

Trailside Programs

A BUG'S LIFE

Season Available: F, S

Grade Level: K – 6

They're creepy, crawly and all together fascinating! Discover the exciting world of a bug's life, as we look at the most successful group of animals on the planet. From the depths of Burnet Woods to the butterfly gardens of Trailside Nature Center, this program offers a unique opportunity to examine metamorphosis, life cycles and the unique roles they play in our day-to-day lives.

CINCINNATI SKIES

Season Available: F, W, S

Grade Level: 1 – 4, 5 – 8, 9 – 12

Experience the oldest planetarium west of the Allegheny Mountains. Discover stars, constellations, galaxies and more. Learn the stories behind Orion, the Big and Little Dippers and many others. Includes Native American, African, Greek and Roman legends. Children participate in hands-on activities revolving around planets, moon phases and constructing star charts for nighttime viewing.

PLANTS: SEEDS TO TREES

Season Available: F, S

Grade Level: 1 – 6

This exciting program functions as a primer on plant life. Children learn about the structure, function and reproduction of local trees and wildflowers as they explore the wooded hillsides of this urban forest. Through the use of hands-on activities, children are exposed to the process of photosynthesis, seasonal changes, seed dispersal and more.

HABITATS AND ADAPTATIONS

Season Available: F, W, S

Grade Level: 1 – 6

This program introduces children to our local habitats, their composition and how plants and animals have adapted to live within them. Through a combination of exploration, fun-filled activities and live animal demonstrations, children gain a greater understanding of the world around them.

Trailside Programs

RECYCLING AND RESOURCES

Season Available: F, S

Grade Level: 2 – 6

Children explore ways to Reduce, Reuse and Recycle our natural resources through hands-on and interactive activities. Fun and active techniques are employed to engage children in the recycling of solid waste, nature's recycling methods and composting.

AQUATIC ECOSYSTEMS

Season Available: F, W, S

Grade Level: 2 – 8

The Burnet Woods Lake serves as our outdoor laboratory as we explore the plants and animals that comprise this unique ecosystem. Hands-on activities engage children in analyzing water quality, investigating aquatic food chains, the water cycle and more. Problem solving skills are used to assess the health of the lake and address pollution issues.

CLASSIFICATIONS: THE KEY TO UNDERSTANDING

Season Available: F, W, S

Grade Level: 3 – 5

Through the use of classification keys, children uncover the characteristics that separate plants and animals into different classes, orders and families. Animal mounts, skulls, leaves and seeds are used to sharpen our new sorting skills.

LOCAL HISTORY TOURS

Season Available: F, S

Grade Level: 9 – 12

Have a bus and need a tour guide? A Cincinnati Park Board Naturalist can bring your next field trip alive with exciting visits to destinations throughout the city. Tours include: Memorial Pioneer Cemetery and the founding of Cincinnati; Along The Waterfront, the Rise of the Queen City; Inclines and Overlooks, and Escaping the Basin. Or explore the exciting history behind the city's older parks and diverse neighborhoods. Tours can be customized to meet your educational needs.

Habitat for Homeschoolers

Cincinnati Park Naturalists provide a local resource for homeschooling families through weekday nature programs that are educational and encourage hands-on learning. Join other homeschooling families for fun and learning.

To find the programs offered monthly from October - May, go to our website: cincinnati-parks.com/programs-and-events/explore-nature-2/ to view our calendar listings. If you would like to receive a monthly newsletter with our current program listings, please call 321-6070 to be placed on a mailing list.

• FEE: \$5.00 per person per program

• **Adults are required to pay and stay for programs if any of their registered children are 8 or under (this includes siblings that also stay and take part in the program).** If your child is 9 or older and you wish to drop her or him off for the program, you will need to fill out a registration form/release. Parents of older children that choose to stay for the program will need to pay the program fee. The form can be sent to you by the Nature Center staff prior to the program.

• All programs require advance registration and have minimum attendance requirements. Call or email the Nature Center staff noted in the program description.

• Homeschool programs are created for and taught to specific age/grade level ranges as mentioned in their descriptions. Speak with the Naturalist to determine if it's appropriate to register your younger/older sibling.

• The Cincinnati Park Board is a non-political, non-religious governmental agency. We teach all of our programs based on commonly accepted scientific principles and theories.

CREATE YOUR OWN PROGRAM

Homeschoolers are encouraged to team up with a minimum of 25 paid participants (adults and children) and schedule any program offered in this booklet from pages 4 – 11. Refer to our scheduling information on pages 16 – 17 and call the Nature Center offering the program you are interested in.

Specialized Programming for Preschoolers

PROGRAMS AT NATURE CENTERS OR CITY PARKS

- * All programs emphasize age-appropriate hands-on activities for children ages 4 and 5 year olds. Please no 3 year olds.
- * Programs are 1 ½ - 2 hours long.
- * Naturalists are happy to answer questions about program specifics.
- * Most centers offer specific preschool programs, listed on pages 4 – 11 of this booklet. Seasonal programs are available at all centers.

SEASONAL PROGRAMS

Fabulous Fall

The leaves are changing colors. Animals need to make preparations for migration or hibernation as the cooler weather sets in. Join us as we find out what makes this season special!

Winter Wonders

There is a chill in the air! Find out who is out and about and who is snoozing the winter away. Bundle up for some winter exploration.

Springing into Spring

Things are warming up. Plants are greening up. Animal babies are springing up. Come see what's happening in spring.

Maple Sugaring

This program is offered only at Caldwell Nature Center and California Woods Nature Center. Find out the secrets of maple sugaring first hand. Preschoolers learn where the sugar comes from, and how we tap the trees. Then they see (and taste!) how tree sap becomes maple syrup. This program, only offered during the month of February and early March, is typically a one-hour program.

HAVE A SPECIAL REQUEST?

Cincinnati Park Nature Centers are able to do other programs as well for your preschoolers. Enjoy programs like:

- Native Americans (Caldwell and LaBoiteaux Woods Nature Centers)
- Local Wildlife
- Habitats, and many more.

PROGRAMS AT YOUR FACILITY

To find out the potential for the above programs to be brought to your location, call the Nature Center closest to your facility with the chosen program.

Butterfly Show Outreach Programming

The Naturalist Staff can travel to your facility to offer outreach programs for organized groups and schools with students from ages 4 – 12. The programs prepare participants for an educational and meaningful experience prior to their visit of the annual international butterfly show at Krohn Conservatory.

Weekdays in February and March from 9:00am – 5:00pm are available for scheduling a program at your site. Our activity/lesson plans work better with a maximum of 30 children per program. Program length is 45 minutes:

Winged Wonders of the Insect World (Ages 4 – 7)

What makes butterflies insects? What exactly is an insect? Why don't we see butterflies in the colder months of the year? What do butterflies use for tasting and eating? Discover the exciting world of a butterfly's life and the unique role they play in the ecosystem. "Build a Butterfly Costume" teaches basic anatomy while a live musical performance helps students gain an appreciation for how humans might help the long term success of these winged wonders.

Preschool – Kindergarten: Special focus given to the process of metamorphosis, seasonal changes, and importance to ecosystems. Program length: 45 minutes

First – Second Grade: Food chain, coloration/camouflage, monarch migration, and differentiation between moths and butterflies are shared. Live musical performance helps students gain an appreciation for how humans might help the long term success of these winged wonders. Program length: 45 minutes

Insectigation Station: Butterflies (Ages 8 – 12)

Investigate through hands-on activities what makes butterflies one of the most successful groups of insects on the planet. From adaptations to fulfilling specific niches within an ecosystem, students examine how humans have helped and hindered the success of butterflies across the planet. Up close examination through microscopy allows students an up close view of butterfly anatomy.

Third – Fourth Grade: Along with the topics mentioned above, discover how metamorphosis and some adaptations conserve energy for a butterfly while habitat changes can be detrimental to their survival. Live musical performance included. Program length: 45 minutes

Fifth – Sixth Grade: Students investigate by viewing wing scales, proboscis, and other physiological features of butterflies under the microscope. Energy flow through an ecosystem is shared as well as a breakdown concerning the newest scientific research findings from around the globe. Live musical performance included. Program length: 45 minutes

Butterfly Show Outreach Programming

Program Fees/Payment

\$100 for first program for a max of 30 children; \$50 each additional program. Payment can be made by voucher / P.O., or by credit card, money order, cashier's check, or school/business check (payable to: Treasurer, City of Cincinnati) in advance or at the time of the program.

We regret that we can no longer accept personal checks. If payment is by PO, please have it in progress when contact is made for scheduling the program.

Scheduling a Program

Call 542-2909 (LaBoiteaux Woods Nature Center) at least two weeks in advance for the program opportunities listed on page 14. Have several preferred dates already cleared with your administration since we cannot put "holds" on dates. Each program requires one teacher present during the program.

Approximately one week prior to your program, a Naturalist will contact you regarding Program details. Except in cases of weather emergencies, cancellations must be made at least 48 hours in advance of your scheduled visit, or a \$20.00 service fee will be charged.

Basics of the Butterfly Show

Krohn Conservatory Annual International Butterfly Show
1501 Eden Park Drive • Cincinnati, OH 45202

Begins mid-March/early April prior to Easter and runs until Father's Day

Show Hours: Monday through Sunday
10 AM - 5 PM

Students enjoy walking among hundreds of butterflies. Tropical flowers of all kinds provide food and shelter, as well as an enchanting, multi-colored backdrop for the butterflies fluttering around the Conservatory's show room. Visitors of all ages also delight in butterfly behavior – flight, feeding, basking, courtship – and be able to experience their fascinating life cycle at close range with our "Butterfly Nursery".

To Schedule a Program

TO SCHEDULE A PROGRAM; Call 321-6070 ext. 10 or the Nature Center you plan to visit (see page 2).

Program dates fill quickly, so please schedule at least 2 weeks in advance. If you have any questions on program content, call the Nature Center chosen for the program.

When you call, please have ready:

- Several preferred dates already cleared with administration and transportation, since we cannot put "holds" on dates
 - Preferred program and location, and an alternate
 - The number of children, grade level and adults coming
 - Contact information; name, e-mail, phone & FAX numbers
- ☞ Cincinnati Public School teachers, please have a PO in progress before calling

GROUP SIZES / CHAPERONES

The number of participants we may accommodate varies. Typically, each Nature Center can receive up to 65 people simultaneously. If you are planning to bring more than 65, we may need to schedule multiple centers or multiple days.

Preschool – adult to child ration of 1/10

Grade school – adult to child ration of 1/20 is preferred

The Naturalists rely on you to control the group and be with them during all the activities.

TYPICAL PROGRAM / TIMES

Programs for preschool and kindergarten are usually shorter, lasting 1 ½ to 2 hours. These half-day programs can be either morning or afternoon, and can include a picnic at the center in suitable weather. A half-day program consists of either a hike or a hike with an indoor program.

Most programs for older children (First grade and up) last 3 - 4 hours and include a lunch break. They typically consist of an indoor program, a hike related to the day's theme and various hands-on activities. Most of these programs can also be offered in a half-day format. However, some activities will be dropped due to time constraints.

ABOUT GRADE LEVELS

Some of our programs show a broad age/grade range in their descriptions. These programs can be customized to accommodate a broader age group through adjusted activities and games.

To Schedule a Program

FEES / PAYMENT FOR PROGRAMS AT NATURE CENTERS

The current program fee, regardless of length, is \$5.00 per child and extra chaperones. All teachers/facility staff and one chaperone for every 15 children attend FREE. Programs with consumable supplies may cost more and are noted in program descriptions.

Minimum Fee: equivalent to \$125 which equals 25 children / paying adults

Payment can be made by voucher / P.O., or by credit card, money order, cashier's check (payable to: Treasurer, City of Cincinnati) in advance or cash at the time of the program. **We regret that we can no longer accept personal checks.**

OUTREACH FEES

Programs are designed for presentation at the Nature Centers. However, some topics (indicated in their descriptions by the icons shown below), can be handled as outreach programs in

neighborhood parks  or at a school. 

Of course, activities will be modified; what can be done depends on the resources available at the outreach site. Call the appropriate Nature Center to discuss details of what can be offered at specific locations and how programs would vary from what is described. Teachers are free.

Outreach Fees:

At Parks: \$5.00 per participant including chaperones.

Minimum Fee: equivalent to \$125 which equals 25 participants.

At Your Location: \$100 for the first 30-60 minute program for up to 30 participants
\$50 each additional program, same topic, same day

CONFIRMATIONS / CANCELLATIONS

Approximately one week prior to your program, a Naturalist will contact you regarding program details. Except in cases of severe weather emergencies, cancellations must be made at least 48 hours in advance of your scheduled visit, or a \$50 cancellation fee will be charged. If your facility is closed due to snow or extreme cold, there is no cancellation charge provided Naturalists are made aware of your facilities closure. We do proceed with programs in cases of rain, normal winter cold, etc.
